

Every dumped pile in Hepburn Shire, collected and **proven**.

Residents report it in three taps. It goes straight to whoever owns the land, a Recycle Group crew collects it the next working day, and it's recycled with a receipt to prove it.

Dumping in Hepburn Shire

16,604

residents across small towns
and a lot of roadside

ABS Census 2021

CCTV

upgraded at the Creswick
Transfer Station over illegal
dumping concerns

Council meeting agenda, 21 May 2024

Clunes

hard waste collection, run by
expression of interest

Council hard waste page

How it works

1 Report it

Snap it, pin it, tap what it is. The
public clock starts.

2 Collected next working day

Booked from one email. Hazards
go to licensed specialists.

3 Recycled and proven

Recycled through our own plant,
with a receipt for every job.

What your team gets

- Reports by email, free, with photo and exact pin
- Routed to the owner: council, roads, rail or parks
- A console with inbox, map, hotspots and evidence
- Monthly m³ kept out of landfill, for your reporting
- QR signs that open the app pinned to the spot

The 90-day pilot

Weeks 1 to 2

Set up. Map the area, agree targets, sign the
hotspots.

Weeks 3 to 12

Run it. Reports in, next-day collection, a receipt
per job.

Week 13

Decide. See the numbers. Keep going, scale up or
stop.
